

DatOptic EZCD/EZCD2 Duplicator

IMPORTANT READ FIRST!!!

The EZCD/EZCD2 Pro Duplicator source disc must be an Original Stamped Master or a CDR disc that was recorded at 4X speed or lower. Many CDR media brands in the market cannot be used as Masters Source discs. They are mainly used to record to and not record from. The 2 brands that are recommended to be used as Master Source discs are Mitsui and Taiyo Yuden. These 2 Master Source CDRs must be recorded at 4X speed or lower. Failure to do this will result in errors, static and pops.
